One printed copy allowed per customer.

Print out the entire set (perhaps on heavy or decorative paper) and cut out the coupons just inside the lines. Choose the ones you want to give to your sweetheart and staple the booklet together with the cover or have it bound at a copy store.

Another great idea is to use the coupons to create your own love game. Take turns picking a card each morning (or once a week) out of a basket to see what wonderful things will be spicing up your love life. Or even hide them around the house.
